

COMPAK – E8 ON DEMAND GRINDER

The Compak Essential range of coffee grinders takes your grinding experience to a whole new level!

This innovative range of grinders provide commercial precision and advanced technology for the most demanding consumer.

The Compak range features a multi-functional digital display that gives you control over the dose, counts shots for you and visualizes grind setting adjustments.

Adjusting your grinder is easy. The turn dial underneath the hopper makes it quick and convenient to adjust.

3 button, touch screen, on demand grinder with a “grind” button for manually dosing your handles. Has a multilanguage display with 3 mode settings: Pre-Selection, Automatic and Instant; to suit the way you want to grind. Can be protected by a password so only the barista has access to adjustments. Total and partial shot counters with a notice of change of burrs.

No matter what coffee machine you have, this grinder has an adjustable group handle fork to fit all size handles in. It also has a universal clamp and holder for hands free dosing.
